## COLLECTION

---

LUXURY RUSTIC WOOD FLOORING  
~ GENUINE FRENCH OAK ~

## ABOUT /

The Manor Collection is an exclusive range of luxury French Oak flooring with a focus on rustic and aged-look styles. These floors are meticulously crafted to a very high standard, with specialist aging techniques used to replicate the colour and texture of an authentic aged floor.

A Manor Collection floor will bring character and depth to any space, with a wide range of colours and plank sizes available to suit all kinds of requirements.

Custom options available on request.

## BENEFITS /

### EXCLUSIVE RANGE

Exclusive range of colours and styles with very few comparable products available in New Zealand.

### IMPECCABLE QUALITY

Manor Collection floors are of impeccable quality, meticulously handcrafted using specialist techniques to achieve the appearance of an authentic aged floor.

### SUPERIOR STABILITY

Manor Collection flooring has an engineered structure which is much more stable than a solid timber floor and greatly reduces the likelihood of shrinkage and movement issues.

### AVAILABLE PRE-FINISHED

Pre-finished flooring comes with the surface already coated and coloured, requiring no further finishing after installation. This saves you the time and hassle of having your floor finished on site.

### GENEROUS WARRANTIES

25 year Structural Warranty on all Manor Collection products.

## TECHNICAL INFO /

### CONSTRUCTION

Structure	Engineered
Overall height	Various
Wear Layer	Genuine French Oak
Base	Cross-directional hardwood multi-ply
Joint system	Standard tongue & groove

### COATINGS

#### Finishes

Extreme matte hardwearing lacquer  
(With the exception of unfinished\* styles)

### INSTALLATION

#### Installation method

Direct stick recommended

#### Under-floor heating

Compatible with most types

#### Re-sanding

-20/6mm & 2 1/6mm product: 2-5 times\*\*  
-15/4mm product: 1-3 times\*\*

### CARE

#### Cleaning

Damp mop with an approved cleaning solution.  
DO NOT use steam mops as wood is sensitive to heat and moisture

#### Coating maintenance

No special coating maintenance required.  
Should the coating look in need of maintenance, contact Forte Flooring for advice.

### WARRANTY

25 year Structural Warranty

### INDUSTRY RATINGS

CE Compliance	EN 14342:2005,
A1:2008	
Reaction to fire	EN 1350 1-1
Breaking Strength	EN 1533:2000
Emission of Formaldehyde	Class E1
Slipperiness	EN 1339:2003
Thermal Conductivity	EN 12664:2001

NZBC Fire Rating ISO 9705 Group 3

\*Unfinished: Without finishing coating or colour; allows for custom finishing to your requirements

\*\*Number of resands: The depth of texture of the product surface affects how many resands it will take. Should you choose to sand back a textured product, a brushing machine will be required to obtain a textured look again and it may be difficult to obtain exactly the same effect.

## CASE STUDY: LUXURY HOME, LAKE HAYES, QUEENSTOWN

*"This home in Lake Hayes is picture perfect; a spacious dwelling complete with tasteful artwork and furniture, the mountainous scenery enveloping it like an endless panorama."*

### ABOUT THIS PROJECT:

These clients were after luxury wood flooring for their new holiday home in Lake Hayes, Queenstown. Their interior designer soon realized there was nothing quite like our Manor Collection when it comes to luxury.

The colour 'Classic' was chosen, in two different widths - 340mm wide Grande planks for the large open-plan areas and 260mm wide Atelier planks for the smaller bedrooms.

The flooring was installed by one of our preferred installers in the Queenstown area, who is tried and true and we knew would do a good job. The project was completed without a hitch and the end result is simply breathtaking!

### PRODUCTS USED ON THIS PROJECT:

#### GRANDE CLASSIC pg 8

Grande planks, 340mm wide and 3.9m long. This product was used throughout the open-plan living, dining and kitchen areas. The large size of the planks is well suited to the proportions of the space and gives it a real feeling of grandeur!

#### ATELIER CLASSIC pg 4

Smaller 260mm wide and 2.2m long planks. This product was used in the smaller areas - the bedrooms. The larger planks would have looked out of proportion in these smaller areas, but the Atelier size suits perfectly.

## CASE STUDY: WHITE & WONG'S RESTAURANT, AUCKLAND

*"Auckland viaduct's new Asian-fusion restaurant White & Wong's has a funky interior designed by Jasmx. The space feels warm and inviting, with just the right amount of quirk and cool"*

### ABOUT THIS PROJECT:

Jasmx's designers for this restaurant wanted a rustic grey wood floor and liked the authentic rustic look of our Manor Collection range.

The designers were interested in the Atelier 260mm wide pre-finished flooring but due to the tight timeframe, a pre-finished option could not be manufactured in time. The same Atelier flooring was available unfinished (without any finishing coating), so the designer settled on this option.

One of our tried and true preferred installers then prepared some samples to show the designers what colours were achievable. A grey oil finish was chosen, oil finish being a practical choice for a restaurant as maintenance is minimal and any wear or damage can be easily repaired.

The flooring was installed and finished on site in February which went very smoothly. The rest of the fitout was completed and the restaurant opened its doors for business in March.

We think the Atelier French Oak flooring ties in nicely with the modern Asian-fusion themed decor of the restaurant, adding character and giving a warm and inviting feel to the space.

### PRODUCTS USED ON THIS PROJECT:

#### ATELIER UNFINISHED pg 4

260mm wide and 2.2m long planks. This product was used throughout the main dining and bar area of the restaurant.
